

**Title:** Business Analyst  
**Department:** IT  
**Reports To:** CTO  
**Employment Status:** Full-time, Permanent, Eurocentral

#### **About Altair Medical:**

Based in central Scotland within easy reach of both Glasgow and Edinburgh, Altair Medical is an early-stage Digital Health company developing a highly innovative real-time monitoring platform solutions for patients with respiratory illness. Combining proprietary sensor technology and innovative AI driven digital therapeutic software, Altair's technology is designed to detect and alert to life-threatening events, reducing preventable deaths from respiratory illness.

Following significant investment, we are seeking a Business Analyst to join our existing team to further develop lifesaving digital health services.

#### **What will you be doing?**

As a Business Analyst at Altair Medical, your role is to bridge the gap between IT and the rest of the business using data analytics to assess processes, determine requirements and deliver data-driven recommendations. You will be responsible for creating detailed functional and non-functional documentation and analysing the results of testing and performance whilst looking for improvements.

#### **What do we expect from you?**

Your experience should replicate the requirements of this role through previous experience in areas such as process mapping / process re-engineering and user stories. Experience in quality management systems such as ISO 9001 and / or ISO 13485 is advantageous.

Communication with our internal and external stakeholders is imperative and therefore the ideal candidate should have proven stakeholder management skills, including the ability to engage with both technical and non-technical stakeholders.

#### **Altair Medical Benefits:**

Altair offers a combination of office and remote working aiming to maximise your work-life balance and have the following additional benefits:

- Company pension
- Flexible working schedule
- Attractive salary
- A chance to grow with an ambitious MedTech company.
