

Title: Software Engineer
Department: IT
Reports To: CTO
Employment Status: Full-time, Permanent, Eurocentral

About Altair Medical:

Based in central Scotland within easy reach of both Glasgow and Edinburgh, Altair Medical is an early-stage Digital Health company developing a highly innovative real-time monitoring platform solutions for patients with respiratory illness. Combining proprietary sensor technology and innovative AI driven digital therapeutic software, Altair's technology is designed to detect and alert to life-threatening events, reducing preventable deaths from respiratory illness.

Following significant investment, we are seeking Software Engineers to join our existing team to further develop lifesaving digital health services.

What will you be doing?

As a Software Engineer, you will be responsible for the design, development and testing of software for cloud and edge deployment. You will be expected to be a full stack developer with strong front end development skills, HTML, CSS and JavaScript and backend skills of SQL and server-side processing on NodeJS or similar. To support this, you will be tasked with preparing supporting technical documentation that meets ISO 13485 standards.

At Altair Medical, we have a continuous improvement attitude and expect you to contribute to this through a positive and forward-thinking mentality, this in turn will enhance the reliability and efficiency of our developed software.

Communication with our internal and external stakeholders is imperative and we expect a transparent and proactive approach taken to communication on design and development tasks.

What do we expect from you?

We expect you to have a positive and pro-active approach with the skillset to match. A background full stack development is required to achieve success in this role. Additionally, of processing data with Artificial Intelligence & Machine Learning would be advantageous.

Altair Medical Benefits:

Altair offers a combination of office and remote working aiming to maximise your work-life balance and have the following additional benefits:

- Company pension
- Flexible working schedule
- Attractive salary
- A chance to grow with an ambitious MedTech company.

ALTAIR MEDICAL
